

**LAMMSCAPES!**

We all are certainly experiencing some challenging & unusual times, however **LAMMSCAPES!** is continuing to move forward and prepare for Spring!

Safety for our employees and customers is important to us and we are committed to taking preventative measures to reduce any risk of spreading the Coronavirus (COVID-19) in our community.

Our company is scheduling Spring clean-up services, tree work and landscape construction jobs as weather permits and Spring begins.

Our landscape designers will be available to look at homes & businesses in yards & outside areas through outdoor visits or online pictures. However, we will limit or refrain from inside meetings. We are also able to communicate proposals, designs and scheduling via phone and online access.

Our landscape crews will be working outside and avoid contact with anyone who is sick or showing symptoms, following the CDC (Center for Disease Control and Prevention) recommendations of washing and sanitizing their hands, avoiding contact with face and covering cough and sneezing into tissues. All tissues and trash will be removed from site in garbage collection.

The nature of our work is done outside and with smaller crews of 2-5 people. They will not be working in large groups or with anyone that appears sick.

Our retail garden center, **Lamm Gardens**, is scheduled to open for Spring on Wednesday, April 1, 2020 and will review schedules as we approach the end of March.

Our April bareroot trees will be outside, as well as our planting workshops, weather permitting, with flowers & fresh air! Our workshops are scheduled with many options in small numbers for detailed instruction. We recommend wearing gloves for planting and dressing for the weather.

We will clean & disinfect all surfaces of tables, counters and check-out area in our store & offices. Cleaning wipes and hand washing will be available for customers and employees.

We can provide delivery and planting services also for items purchased. We will contact you regarding schedule for contracted landscape designs, planning or services.

Conditions seem to be constantly changing, almost daily with the COVID-19 updates. Please help us in limiting the spread of the virus by staying home if you have symptoms.

Please contact us by phone at (262) 677-3010 or visit our Contact Us page on [www.lammscape.com](http://www.lammscape.com) to schedule or reschedule appointments and for answers to questions about our Spring services.

Through these uncertain times, we ultimately put our faith in God to guide our leaders and help all of us through each day together. Remember, Spring will come with the beauty of flowers, lawns & landscapes providing hope & happiness for the seasons ahead! Spending time with your family outside is healthy, will reduce germs and provide important fresh air, as well as houseplants helping purify your air inside!

Thank you for your support of small businesses in our community! We look forward to bringing Nature's beauty to you & your family this Spring!

~ The Lamm Family & Team
