

LAMMSCAPES!

We're growing our Landscape Services team!

Landscape Construction Foreman and Leaders:

Are you a motivated and detail oriented person, with experience in leading a landscape crew? We are looking for the right candidates to help us expand our landscape installation services.

Qualified candidates are creative people, who are willing to work physically, be accountable for your actions, and direct others in a safe and professional way. You must have a passion for creating beautiful landscapes, being outdoors, and doing a variety of work.

If you have previous experience as a landscape crew leader, a clean and valid driver's license, and have worked in various areas of landscape installation, including planting, grading, construction & more, we'd like to meet you!

Landscape Construction Technicians & Crew People:

Want an opportunity to spend time in the great outdoors, get in great physical shape, work with your hands, and create amazing landscapes? We are now hiring additional landscape crew people to work on our installation and construction crews. Previous experience in the landscape industry is a plus but not necessary. What is necessary is a willingness to learn new skills and a desire to do the best job possible. Qualified candidates must have the ability and interest to work physically and with a great team.

Please send your resume to mail@lammscape.com or mail to:
